"Rekindling A New Flame To Cold Embers"

Linkage

27/12/2017

The Linkage that the Lord is establishing is amazing!

Thank you for your continued prayers for Skyler's health. Pray for complete healing. Though the medication is keeping the Crohn's symptoms at bay, having the immune system shut off brings other health risks.

Pray for Samantha as she is seeking God's plan as she finishes high school this year.

Linkage from Gabi to Michelle: Gabi, who started discipleship, took the first lesson home. Her daughter, Michelle, has attended our church off and on for years. She claimed to be a believer though never committing to our church. Michelle, approached me before church stating that she needed to talk. After services, I asked her what was on her heart. With tears in her eyes, she stated that she needed to become a real Christian. I asked her a few questions and soon she was asking Jesus to save her! What an instant change of spirit! She is now filled with the joy of the Lord. Now, we have mother and daughter in discipleship and baptisms soon to follow!

Linkage from Baseball and Christmas outreach to School opportunities:

- I was asked to hold the devotional at the school's Faculty Christmas Party.
- Our teen's after school Bible club is taking off. Pray that God will build and use these great young people.

Linkage with other Christians in Germany: The Reformation Festival was a great success. We had two groups of young people join us in passing out nearly 6,000 pieces of Christian literature spanning from simple tracts, CDs, and children's booklets, to complete Bibles. One team was from southern Germany. The other was from Berlin. The Berlin team even drew a crowd by singing German hymns acapella!

Please pray for wisdom as we will be needing a new car in the future. Many of you have helped by providing funds to keep our 12-year old van running. Thank you so much! We fear though that it's time is limited, so we have opened a savings account at the mission's office in preparation for that day. If you would like to help, please label such donation; "car fund". It is our prayer, that our van will hold together until the funds are sufficient to buy a replacement. The exhaust manifold developed a crack and will need to be replaced.

Thanks so much for your support!
Paul, Chelli and the Sudbrock Kids.
