

Mozambique June, 2018.

Praise the Lord that we are finally in Mozambique. We are so thankful to God for His care and provision during our times of travel. We are now in the capital city, Maputo, where we are staying for the second of our two years here. We are here to help start training for missions in local church contexts. We have also been able to have better medical care here during the pregnancy. We have been visiting the village work among the Maindo regularly, and we hope to be able to move back into our own home by the end of the year.

While we were in Brazil, Rubenita's father was having some health problems, and he had to come stay with us, so that he could receive better home care. We discovered through the tests that he suffered from a light heart attack and a light stroke as well. Even in our house, he had a light stroke, but thankfully there were no long term effects. The whole family rotates who helps him regularly, and he continues to get better. God must have been working to give us special time for Joanna to meet her grandpa and for us to share God's Word with him.

In April we were able to get the residency for Joanna finalized, and then we participated in the annual field meetings. It was a good time to be together with other missionaries to encourage each other.

Now in June, we will be working in Zambézia, with visits to the village, and meetings with pastors and government officials. Our house has suffered from the rains and wind, and it needs a new roof.

Please pray as we have a number of important decisions to make as a team.

In Christ,

Arnie, Rubenita and Joanna Johnson
