

Haynie's Happenings

December 2020

Hello and Merry Christmas!

A year ago, I retired. I have had lots to do and been kept busy. I was tutoring a 6-year-old in reading and sorting and tossing lots of things in my house.

In **June** I had carpal tunnel surgery on both wrists

In **July** I had total knee replacement (left). My sister Caroline came for 5 weeks to care for me.

In **August** my ladies Bible study group gave me a birthday party.

It has taken a long time to recover and the knee is still healing internally.

In **October** my landlord asked me to check in on his 86-year-old mother which I did for several weeks. She then became disoriented and confused and other arrangements were made.

My niece Schelli and her husband Dennis came to visit in August. This picture is me sitting on my walker with **Caroline, Schelli, and Dennis**.

*Be committed to Christ,
not convenience.*

This is my niece **Candace with her son Ethan** at Patrick's Point State Park. They live in Washington State. She was taking him to Humbolt State University in September.

My niece **Cynthia** who lives in Nevada.

I have lots of nieces and nephews and even great nieces and nephews. Pictured in this letter are just a few of them.

My greatest prayer for family and friends is that they read the Bible daily and that they read it all they way through. We have no right to any opinions until we have been saturated in God's Word. It will change our humanist opinions into conformance with God's.

I never married or had children, but the Cornerstone students have always seemed like my kids. This picture taken in October is the group who came to my house for a popcorn party.

Merry Christmas from a gray-haired Ruth! (smile)
It is short because of my surgery.
